Men's Over 45 Plate Final (Hereford v Springhealth)

# NATIONAL CLUB CHAMPIONSHIPS 2007 / 2008 Report

The European Club Championships await Colets and Pontefract once again after retaining their National Club titles in style at Nottingham SRC over the weekend.

Colets men, including former Nottingham player Peter Marshall defeated close rivals Bishop's Stortford 3-2 in the semi-finals before overcoming host club Nottingham by the same score line in Sunday's final.

Pontefract women, now led by former World Champion Vanessa Atkinson proved far too strong for the opposition and ran out comfortable winners over both Nottingham and Colets to collect their ninth title in total and their fifth in the last six years.

Colets and Pontefract now both go forward to represent England in the ESF European Club Championships that are being held in Linz, Austria at the end of September.

After holding the Men's Over 35 crown for the last 5 years Colets failed to reach this year's final after losing out to Connaught in the semi's. Connaught proved worthy of succeeding Colets as champions with a comprehensive 4-1 victory over Prestbury in the final. New Eltham reclaimed the Women's Over 35 title that they last won in 2006 by defeating defending Champions Chapel Allerton 3-0.

Kenilworth celebrated reaching the finals weekend for the first time by coaching supporters in to cheer on their Junior team. However they were up against an extremely strong Pontefract side that included England international Neil Cordell. After a brave fight Kenilworth fell to a 4-1 defeat that gave Pontefract the Junior title to add to the women's.

Racquets Thame made it third time lucky in the Racketball championship. After twice being losing finalists they finally ended their wait for the title with a 4-1 win over the 2007 champions Chapel Allerton.

Colets and Brighton picked up the Men's Over 45 and 55 honours with close 2-1 victories over Chapel Allerton and Edgbaston Priory respectively.

## **Mens Final**

### **Colets V Nottingham**

|                   |   |                |     |             |
